

Slumber Firm

Quilting- soft knit stretch fabric made from 100% polyester.

Pillow top- this is an extra comfort layer that is sewn on top of the mattress, with a slight gap in between.

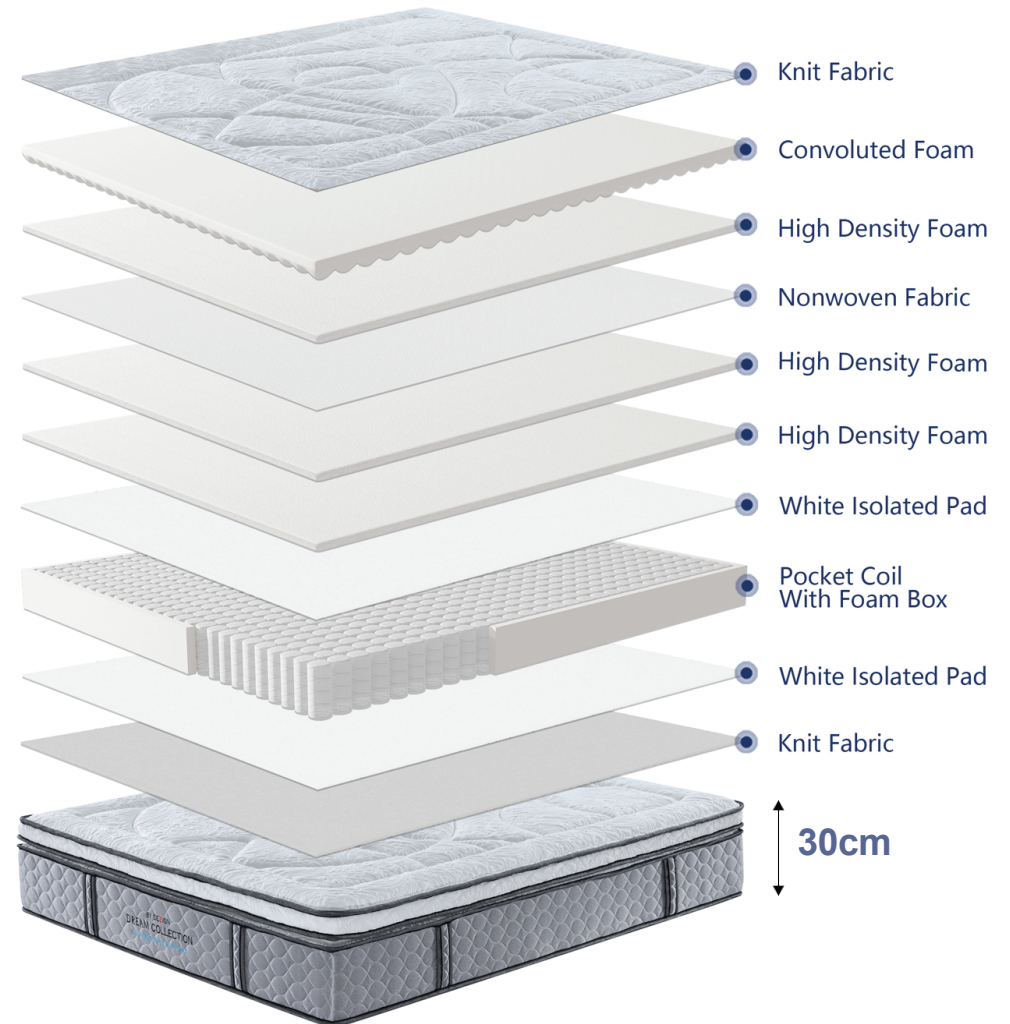

High density foam- to enhance spinal support & create a firm sleeping surface.

Convolut ed foam- to assist in the redistribution of body weight & provide low range pressure relief, whilst allowing for airflow.

Pocket springs- 1333 individually wrapped micro springs (in queen mattress) which offer individual support & significantly minimise the disturbance from a partner.

Foam boxed edging- pocket springs are encased by an edge of polyurethane foam to provide extra support around the sides of the mattress, particularly when sitting.

Rolled & compressed- vacuum packaged for easy transportation.

Queen Size \$1,899
