**Quilting-** knit stretch fabric + foam + convoluted foam for resilience and lasting comfort.

**Memory foam-** a polyurethane foam with specialised properties that allow it to absorb impact and disperse weight evenly, thereby eliminating pressure. Memory foam contours to sleepers to promote natural spinal alignment and resists motion transfer to minimise partner disturbance.

**Isolated pad-** blocks out any noise generated from the metal springs rubbing against each other.

**Pocket springs-** individually wrapped springs which offer individual support & significantly minimise the disturbance from a partner.
